Advertisement for a Postdoctoral Position

Applications are invited from motivated and eligible candidates for a postdoctoral position in the research project “*New physics at LHC and ILC*”

Brief description of project: Higgs particle has recently been discovered at the Large Hadron Collider (LHC). Signature of an extended scalar sector is yet to be found at the LHC. The proposed International Linear Collider (ILC) will help determine precisely the properties of the Higgs boson(s) and thus can provide hints of new physics beyond the standard model of particle physics.

Eligibility: Ph.D. in particle physics. Please note that you should have defended your Ph.D. dissertation.

Stipend:

Postdoctoral Fellow will be paid consolidated salary based on the following salary structure of the DST for Research Associate.
